

Introduction to Website Development

Task 3 - Evaluation and Testing

Kaya Cutajar 5.1B

1. IPO – Based on the wireframes

Frontpage		
Input	Process	Output
User clicks on arrow icon	Loads data for the artists page	The artist page is displayed

Artists Page		
Input	Process	Output
User clicks on multiple artists	Data highlights the clicked artists	Artist are selected
User clicks on arrow icon	Loads data for the next page	The homepage is displayed
User clicks on profile icon	Loads data for user account page	The user account page is shown
User clicks “Contact” on footer	Loads data for discover page	The discover page is displayed
User clicks “Discover” on navbar	Loads data for song page	The song page is displayed
User clicks “Stream” on navbar	Loads data for saved playlist page	Saved playlist page is displayed
User clicks “Playlist” on navbar	Loads data for team page	Team page is displayed
User clicks “Mood” on navbar	Loads data for mood playlist page	Mood playlist page is displayed
User clicks “Team” on footer	Loads data for team page	Team page is displayed
User clicks on the arrow on top	Loads data from previous page	Frontpage is displayed

Homepage		
Input	Process	Output
User clicks on profile icon	Loads data for user account page	The user account page is shown
User clicks “Contact” on footer	Loads data for discover page	The discover page is displayed
User clicks “Discover” on navbar	Loads data for song page	The song page is displayed
User clicks “Stream” on navbar	Loads data for saved playlist page	Saved playlist page is displayed
User clicks “Playlist” on navbar	Loads data for team page	Team page is displayed
User clicks “Mood” on navbar	Loads data for mood playlist page	Mood playlist page is displayed
User clicks “Team” on footer	Loads data for team page	Team page is displayed
User clicks on the arrow on top	Loads data from previous page	Artist page is displayed

Profile		
Input	Process	Output
User clicks “Contact” on footer	Loads data for discover page	The discover page is displayed

User clicks “Discover” on navbar	Loads data for song page	The song page is displayed
User clicks “Stream” on navbar	Loads data for saved playlist page	Saved playlist page is displayed
User clicks “Playlist” on navbar	Loads data for team page	Team page is displayed
User clicks “Mood” on navbar	Loads data for mood playlist page	Mood playlist page is displayed
User clicks “Team” on footer	Loads data for team page	Team page is displayed
User clicks on the arrow on top	Loads data from previous page	Homepage is displayed

Discover Page		
Input	Process	Output
User clicks on profile icon	Loads data for user account page	The user account page is shown
User clicks “Contact” on footer	Loads data for discover page	The discover page is displayed
User clicks “Discover” on navbar	Loads data for song page	The song page is displayed
User clicks “Stream” on navbar	Loads data for saved playlist page	Saved playlist page is displayed
User clicks “Playlist” on navbar	Loads data for team page	Team page is displayed
User clicks “Mood” on navbar	Loads data for mood playlist page	Mood playlist page is displayed
User clicks on “Albums” image	Loads data for saved playlist page	Takes you to the save playlist page
User clicks on “Songs” image	Loads data for song page	Takes you to song page
User clicks on “Mood Playlists” image	Loads data for mood playlist page	Takes you to the mood playlist page
User clicks on the arrow on top	Loads data for previous page	Profile page is displayed

Contact Page		
Input	Process	Output
User types information in textboxes	Data loads text being typed in textboxes	Text is displayed in textboxes
User clicks bottom arrow	Opens outlook	Outlook is open to send message
User clicks on profile icon	Loads data for user account page	The user account page is shown
User clicks “Discover” on navbar	Loads data for song page	The song page is displayed
User clicks “Stream” on navbar	Loads data for saved playlist page	Saved playlist page is displayed
User clicks “Playlist” on navbar	Loads data for team page	Team page is displayed
User clicks “Mood” on navbar	Loads data for mood playlist page	Mood playlist page is displayed
User clicks “Team” on footer	Loads data for team page	Team page is displayed
User clicks on the arrow on top	Loads data from previous page	Discover page is displayed

Log-in Page		
Input	Process	Output
User types information in textboxes	Data loads text being typed in textboxes	Text is displayed in textboxes

User clicks "Login"	Data loads next page	Homepage is displayed
User clicks on profile icon	Loads data for user account page	The user account page is shown
User clicks "Contact" on footer	Loads data for discover page	The discover page is displayed
User clicks "Discover" on navbar	Loads data for song page	The song page is displayed
User clicks "Stream" on navbar	Loads data for saved playlist page	Saved playlist page is displayed
User clicks "Playlist" on navbar	Loads data for team page	Team page is displayed
User clicks "Mood" on navbar	Loads data for mood playlist page	Mood playlist page is displayed
User clicks "Team" on footer	Loads data for team page	Team page is displayed
User clicks on the arrow on top	Loads data from previous page	Contact page is displayed

Song Page		
Input	Process	Output
User clicks "Next Up"	Loads data of a dropdown list of next up songs	Dropdown list named "Next Up:" is displayed
User clicks on profile icon	Loads data for user account page	The user account page is shown
User clicks "Contact" on footer	Loads data for discover page	The discover page is displayed
User clicks "Discover" on navbar	Loads data for song page	The song page is displayed
User clicks "Stream" on navbar	Loads data for saved playlist page	Saved playlist page is displayed
User clicks "Playlist" on navbar	Loads data for team page	Team page is displayed
User clicks "Mood" on navbar	Loads data for mood playlist page	Mood playlist page is displayed
User clicks "Team" on footer	Loads data for team page	Team page is displayed
User clicks on the arrow on top	Loads data from previous page	Discover page is displayed

Mood Playlist Page		
Input	Process	Output
User clicks on profile icon	Loads data for user account page	The user account page is shown
User clicks "Contact" on footer	Loads data for contact page	Contact page is displayed
User clicks "Discover" on navbar	Loads data for discover page	The discover page is displayed
User clicks "Stream" on navbar	Loads data for song page	The song page is displayed
User clicks "Playlist" on navbar	Loads data for saved playlist page	Saved playlist page is displayed
User clicks "Team" on footer	Loads data for team page	Team page is displayed
User clicks on the arrow on top	Loads data from previous page	Discover page is displayed

The Team Page		
Input	Process	Output
User clicks on profile icon	Loads data for user account page	The user account page is shown
User clicks "Contact" on footer	Loads data for contact page	Contact page is displayed
User clicks "Discover" on navbar	Loads data for discover page	The discover page is displayed

User clicks "Stream" on navbar	Loads data for song page	The song page is displayed
User clicks "Playlist" on navbar	Loads data for saved playlist page	Saved playlist page is displayed
User clicks "Mood" on navbar	Loads data for mood playlist page	Mood playlist page is displayed
User clicks on the arrow on top	Loads data from previous page	Homepage is displayed

Saved Playlist Page		
Input	Process	Output
User clicks "Playlists" on the left	Loads data of a saved playlist dropdown	Dropdown list named "Saved Playlist" is displayed
User clicks on profile icon	Loads data for user account page	The user account page is shown
User clicks "Contact" on footer	Loads data for discover page	The discover page is displayed
User clicks "Discover" on navbar	Loads data for song page	The song page is displayed
User clicks "Stream" on navbar	Loads data for saved playlist page	Saved playlist page is displayed
User clicks "Playlist" on navbar	Loads data for team page	Team page is displayed
User clicks "Mood" on navbar	Loads data for mood playlist page	Mood playlist page is displayed
User clicks "Team" on footer	Loads data for team page	Team page is displayed
User clicks on the arrow on top	Loads data from previous page	Discover page is displayed

2. Test Cases

Frontpage				
Test Description	Expected Output	Actual Output	Pass/Fail	Notes
User clicks on arrow icon	Take you to the home page	Takes you to the artist page	Pass	

Navbar				
Test Description	Expected Output	Actual Output	Pass/Fail	Notes
User clicks on the home icon on top	The homepage should be displayed	The homepage is displayed	Pass	In the wireframes the home icon is an arrow which takes you to previous pages.
User types in the search box.	Text is inputted on the search box.	Text is inputted on the search box.	Pass	
User clicks on profile icon	The user account should be displayed	The user account page is displayed	Pass	
User clicks "Discover" on navbar	The discover page is displayed	No page	Fail	
User clicks "Stream" on navbar	The Song page is displayed	No page	Fail	

User clicks "Playlist" on navbar	The Playlist page is displayed	No page	Fail	
User clicks "Mood" on navbar	The Mood page is displayed	The Mood page is displayed	Pass	

Footer				
Test Description	Expected Output	Actual Output	Pass/Fail	Notes
User clicks "Contact" on footer	The Contact page is displayed	The Contact page is displayed	Pass	
User clicks "Team" on footer	The Team page is displayed	No page	Fail	

Artists				
Test Description	Expected Output	Actual Output	Pass/Fail	Notes
User selects artists	Highlights the selected artists	Highlights the selected artists	Pass	
User clicks on proceed	The proceed button takes you to the homepage	Takes you nowhere	Fail	The proceed button was changed, it was an arrow in the wireframes.

Homepage				
Test Description	Expected Output	Actual Output	Pass/Fail	Notes
A self-scrollable interactive of different artist names	Can scroll horizontally	Can scroll horizontally	Pass	After scrolling through artists, it loops twice, stops and nothing is displaced.
User hovers and clicks on "The Beatles" and "Sufjan Stevens" albums	Creates a drop shadow while hovering and takes you to their album pages.	Created a drop shadow while hovering and takes you to their album pages.	Pass	

Profile				
Test Description	Expected Output	Actual Output	Pass/Fail	Notes
None	None	None	Pass	Just profile information is displayed.

Mood				
------	--	--	--	--

Test Description	Expected Output	Actual Output	Pass/Fail	Notes
None	None	None	Pass	Just a list of mood icons is displayed.

Contact				
Test Description	Expected Output	Actual Output	Pass/Fail	Notes
User types in the text boxes.	Text is inputted in the text boxes.	Text is inputted on the text boxes.	Pass	
User clicks submit	Takes you to homepage	Takes you to homepage	Pass	
User clicks on the email	Takes you to Outlook to send an email message	Takes you to Outlook to send an email message	Pass	

Album				
Test Description	Expected Output	Actual Output	Pass/Fail	Notes
A list of songs is displayed	Clicks on song and take you to the song page	Hovers over each song but doesn't take you to the song page.	Pass	

3. Code Validation

There is no sign of Error in the CSS pages.

There are TWO signs of Error in the footer tags in the album.html and album2.html pages.

Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

Message Filtering

- Error** Stray start tag 'footer'.
From line 176, column 1: to line 176, column 23
nning --><footer class="footer"><di
- Fatal Error** Cannot recover after last error. Any further errors will be ignored.
From line 176, column 1: to line 176, column 23
nning --><footer class="footer"><di

The validator is throwing a "Fatal Error" because she accidentally closed the `</body>` and `</html>` tags in the middle of the page, right before the footer even starts

```

/body>
/html>

!---FOOTER beginning --->
<div class="footer">
  <div class="footer-pages">
    <a href="#">Help</a>
    <a href="#">About</a>
    <a href="contact.html">Contact</a>
    <a href="#">Team</a>
  </div>

  <div class="socials">
    <p class="socialsTitle">Socials</p>
    <div class="socialsIcons">
      
      
      
      
    </div>
  </div>

  <div class="footer-bottom">
    <p>Copyright © 2026 Amplify</p>
  </div>
</div>

!---FOOTER end --->

script src="https://cdn.jsdelivr.net/npm/bootstrap@5.3.8/dist/js/bootstrap.bundle.min.js" integrity="sha384-FKyoEForCGl vwx9H1"
/body>
/html>
```

4. Suggestions for further development

I would rename `fontpage.html` to `index.html` to clearly indicate that it serves as the first page of the website.

While the wireframe includes a top arrow for back-navigation, the implemented code features a home icon that redirects users straight to the homepage. This breaks the intended back-button interactions, making it impossible to return to either the frontpage or the artists page. To resolve this error, I would create the "Amplify" name as a link to the homepage, leaving the back arrow free on each page.

Additionally, the project feels unfinished because several navbar items lack corresponding pages. I would create the design strictly based on the navigation pages that are actually functional and remove unnecessary pages that won't have a functional page.

Regarding typography, I appreciate the implementation of a secondary fallback font for cases where the primary custom font fails to load, showing a thoughtful approach to web font optimization.

However, rather than creating separate stylesheets for every single page, I would integrate the CSS directly into the HTML `<head>` using `<style>` tags to keep the project files more organized. Finally, from a styling perspective, the layout feels too disconnected, I would decrease the top margins to reduce the excessive whitespace between the subheadings and the main content.
